EARNED INCOME PROFIT OPTIMIZER

PAYBACKS 10 FOLD THE INVESTMENT!

Fellow Golbon Distributors,

We at Quality Sales Foodservice purchased Trackmax Earned Income Profit Optimizer 3 or 4 years ago. It has been the BEST investment we have ever spent money on. Its paybacks have been 10 fold the investment. Take a look at the program, as it will out do any software program modules. It interfaces with our current software program and is priceless.....!

TRACKMAX EXCEEDS EXPECTATIONS.

The Trackmax Earned Income system has exceeded our expectations. The ease of use and powerful reporting are all you said it would be and more. We're very excited and pleased. Your entire staff has been a real big help and a true pleasure to work with. Please send the Insight docs, as we are very anxious to continue moving forward.

DETAILED AND ROBUST VENDOR REPORTS.

"If you're not on Trackmax, I'd give it a second look! We've been incredibly satisfied with the capabilities Trackmax provides us, there's very detailed and robust reporting that we provide to our vendors. We've always been very focused on our vendor income with the system we built over the years, but I have to say, Trackmax closed the few gaps we had."

THE ONLY LINE-ITEM TRACKING SOFTWARE

"Trackmax is the only software we have found that tracks all sales and purchasing-based transactions at the line-item level. Most importantly, we can create reports to manage our earned income dollars in a timely and effective manner."

EVERY EARNED PENNY TRANSPARENCY.

"It was a shock to see how much income was slipping through the cracks. With EIPO, we see every penny we're owed, at the click of a button we provide our vendor partners with exact and proper line item documentation. Deductions are now authorized and they love it."

HELPING DISTRIBUTORS MAKE MONEY.

Any vendor income you earn and are owed, you are able to document and collect with Trackmax, It's a lot easier than trying to go sell X number of dollars of product to go make that money back again. You guys have been providing software to foodservice distributors that help us make money...and you do it well"

Len McFarling - McFarling Foods, Inc.

USER FRIENDLY EFFICIENCIES.

"I was ecstatic at the changes! The screens are user friendly, the processes were more efficient and the overall performance was tremendous. The ability to have multiple users on the system was one of the major benefits for us as well as our receivables automatically moved into our mainframe payables system, I highly recommend Trackmax!"
